

# ***SEIU Local 1021 Alameda Health System Bargaining Update, June 21, 2024***

# **THE CLOCK IS TICKING**

# **3 ... 2 ... 1 ...**

## ***Wear Your Purple EVERY WEDNESDAY***

Your elected Bargaining Team met with management late into the nights of June 17 and 20. Some progress is being made, but **management continues to ignore information requests about safety and staffing and still hasn't gotten serious about fixing short staffing to ensure safe patient care.**

**We have two sessions left** (Monday the 24th and Wednesday the 26th), and **we intend to have a tentative agreement after these sessions.** If we do not have an agreement by that time, the Bargaining Team will explore all options, including announcing a strike. **Purple up to remind management we voted 99.5% to strike!**

### **New Tentative Agreements:**

- Guaranteed uniforms for gardeners and EVS workers
- Juneteenth holiday added to our MOU
- Expanded bereavement leave
- Increased training pay for all three contracts and new preceptor pay for General Unit and San Leandro Hospital contracts
- Expanding outpatient appointment times for patients who need interpreters
- Protecting break RNs from getting pulled into other roles
